### Quality-Right and Price-Right

In purchasing a monument, we believe that it is your idea to get in touch with a dealer who has real values—goods that will satisfy—not goods that have nothing but a low price for an inducement, but goods that are quality-right and price-right.

A visit to our salesroom is solicited. Here you will find monuments, headstones and markers most effectively displayed, and you will be given efficient and intelligent attention.

Call at your convenience and examine personally the widest range of quality memorials ever exhibited in North-west Missouri, at right prices.
